RE: Application for renewal of Recycling Market Development Zone designation for the City of San Jose.

In 1993, the City of San Jose received a designation from the CIWMB as one of the first 40 Recycling Market Development Zones (RMDZ) in California. In March of 2004, this designation will expire.

The City of San Jose hereby requests that the CIWMB redesignate the San Jose RMDZ for another ten-year term.

Our redesignation package consists of the following:

- ✓ Application form.
- ✓ Updated zone profile page.
- ✓ Updated Market Development Plan.
- ✓ A copy of our zone action plan.
- ✓ A copy of our CEQA Notice of Determination.*
- ✓ A copy of our resolution. *

*The San Jose City Council approved our resolution yesterday, February 10, 2004. A signed copy of the resolution is included with this package and a copy of the Notice of Determination will be sent to your office within 5 days.

The updated Market Development Plan addresses the most significant changes to the RMDZ since the zone was originally designated. It includes changes made to existing San Jose programs and/or descriptions of new programs, top feedstock categories, and a description of the financial & technical assistance programs offered in San Jose.

Please accept this application for consideration to redesignate the City of San Jose as an RMDZ zone.

The name and address of the redesignation applicant is as follows:

Peggy Horning
Environmental Specialist/RMDZ Administrator
City of San Jose
Integrated Waste Management Division
777 N. 1st Street, Suite #300
San Jose, CA 95112

Thank you for your consideration,

Peggy Horning
